EVF'2018

5th International Symposium « Energy & City of the Future » October 25-26, 2018, Fes, MOROCCO

The 5th Edition of the International Symposium "Energy and City of the Future" (EVF'2018), will be held on **October 25-26, 2018**, at Fes, Morocco.

Created in 2014 by ECAM-EPMI (Cergy-Pontoise, France), Queen's University (Ontario, Canada) and the University of Lorraine (Longwy, France), EVF'2018 is co-organized with Sidi Mohamed Ben Abdellah University, Faculty of Sciences Dhar El Mahraz (FSDM) – Morocco.

Following of the success of the previous editions, EVF'2014 (Cergy-Pontoise, France), EVF'2015 (Tétouan, Morocco), EVF'2016 (Kingston, Canada) and EVF'2017 (Longwy, France), the International Symposium EVF'2018 aims to bring together academic researchers, industrial scientists and institutional actors to exchange their experiences and research results about all aspects (technical, conceptual, methodological, practical, societal, environmental, ...) dealing with **Energy** and the **City of the Future**. Topics of interest and themes of the symposium include, but are not limited to:

- | | |
|-----------------|---|
| Energy | Renewable energies, energy mix, smart grids, innovative materials, production, storage, optimization, management... |
| Mobility | Electro mobility, shared transportation, car-pooling, car-sharing, shared parking, transportation regulations, ... |
| Housing | Positive energy building, sustainable architecture, vegetation, smart materials, insulation, heating, air conditioning, ... |
| Waste | Waste valorization, energy from waste, recycling processes, treatment processes, waste sorting, associated strategies and numerical techniques... |
| Health | E-health/E-Care solutions, hospital systems, smart health, telemedicine, nanotechnologies, robotics ... |

EVF'2018 will be scheduled to include high quality contributions during oral presentation and poster sessions, and to engage industrial and institutional participants in interesting opening Plenary Sessions and Round Table discussions.

**** Proposals Submission ****

We encourage communications built on interdisciplinary research. Proposals must be submitted as **short papers** in **English** or **French** and should not exceed **2-4 pages**. The contribution must be written according to our **Word Template** that can be downloaded from:
